

# Edge Case Testing

## Nested Structures

1. Level 1
  - Nested Item
  - Another Nested Item
    - Deeply Nested
    - Even Deeper

With a blockquote inside!  
And some inline code
  - Back to Level 2
2. Back to Level 1

## Mixed Styling

This is **bold** and *italic* and ~~strikethrough~~ all at once.

How about a link inside a footnote?<sup>1</sup>

## Table with Noisy Content

Column 1 (with code )	Column 2 (bold)	Column 3
Row 1	<a href="#">Link</a>	$E = mc^2$
Row 2	<div>600 × 400</div>	Deleted

## Empty Sections

(The heading above is empty)

# Escaped Content

---

# This is not a heading

\* This is not a list

[TOC] This is not a TOC (because of the backslash - wait, my renderer doesn't handle escaped [TOC] yet)

# Image with Base Path

---

---

## Footnotes

---

1. Check out [Google](#).
