

Edge Case Testing

Nested Structures

1. Level 1
 - Nested Item
 - Another Nested Item
 1. Deeply Nested
 2. Even Deeper
 - With a blockquote inside!
 - And some `inline code`
 - Back to Level 2
2. Back to Level 1

Mixed Styling

This is **bold** and *italic* and ~~strikethrough~~ all at once.

How about a link inside a footnote?¹

Table with Noisy Content

Column 1 (with code)	Column 2 (bold)	Column 3
Row 1	Link	$E = mc^2$
Row 2	 A photograph showing the Eiffel Tower in Paris, France, with several multi-story apartment buildings in the foreground. The sky is overcast.	Deleted

Empty Sections

(The heading above is empty)

Escaped Content

This is not a heading

* This is not a list

[TOC] This is not a TOC (because of the backslash - wait, my renderer doesn't handle escaped [TOC] yet)

Image with Base Path

Footnotes

1. Check out [Google](#).
